**Membership Alert: Please Don't Overlook Your
Chapter Dues on your AAP Invoice!!**

An Important Message for Our Members:

Your Georgia Chapter dues are billed by the AAP national office in Chicago. Whether you are a member of the National AAP and Georgia Chapter, or are a member only of the Chapter, your dues will be billed from Chicago. (The AAP collects our Chapter dues and then sends them to us.)

However, we've received reports that our members (or staff) overlook the Chapter dues on the invoice which national AAP sends you. Several members reported they paid national dues but inadvertently did not pay Chapter dues.

Please review your AAP invoice carefully and be sure to include Chapter dues as part of the payment. Also, please share this information with your administrative staff that may be processing your dues invoice. May and June contain the most renewals of the year so many of you should have invoices in your mailboxes now or soon arriving.

Another Reminder: national AAP and your Chapter membership are not linked. You can belong to one, without belonging to the other.

Your Chapter membership makes us a stronger voice here in Georgia for our patients and for pediatrics. **Please make retaining your Chapter membership a priority.** For further information or questions, contact Kasha Askew at the Chapter office, 404-881-5067 or kaskew@gaaap.org.

Thank you.
