

BLAST Communication

Announcing!

A Pediatric Guide: Caring for Infants Born to Hepatitis B Infected Mothers

Tuesday, May 12, 2015
12:00pm – 1:00pm

Join your colleagues for this live presentation and discussion with:

Tracy Kavanaugh, MS, MCHES

Georgia Perinatal Hepatitis B Prevention Program Coordinator
Acute Disease Epidemiology Section
Georgia Department of Public Health

Lynne Mercedes

Hepatitis Program Director
Acute Disease Epidemiology Section
Georgia Department of Public Health

Intended Audience includes: Pediatricians, Physician Assistants, Nurse Practitioners, Nursing Staff, Medical Assistants, and other health care professionals that care for pediatric clients.

Upon completion of this program the attendee shall be able to:

- Describe the sequelae of perinatal hepatitis B infection
- Assess infants and children for perinatal hepatitis B exposure
- List the recommended immunization schedule for infants exposed to hepatitis B at birth
- Identify the laboratory tests included in post-vaccination serologic testing
- Collaborate with the Georgia Perinatal Hepatitis B Prevention Program on case management
