**Objectives:**

At the completion of this seminar, the participant should be able to:

- Provide the appropriate diagnosis and treatment of depression in children and adolescents.
- Identify the primary anxiety disorders in children.
- Identify oppositional behavior and understand causes for the escalation of the behavior.
- Discuss the role of pharmacological treatment and non-pharmacological treatment in the context of an integrated approach to intervention for children and youth with Depression.
- Apply principles of psychosocial intervention in the treatment of children and adolescents with ADHD.
- Promote access to and the availability of mental health resources for children in Georgia.

**Meeting Details:**

Come join your colleagues to earn CME and learn more about pediatric mental health topics in historic Savannah! The Savannah Marriott Riverfront is located at 100 General McIntosh Boulevard, Savannah, Georgia 31401.
