

Collaborating with WIC to Improve Health Outcomes

Georgia WIC Checklist for Pediatric Practices

✓ **ASK**
about WIC at every visit for children up to age 5. Many families think benefits stop after age 1, however, older children may still be eligible.

✓ **SHARE**
WIC resources and brochures to show your patients that you support WIC participation.

✓ **REFER**
families for peer support, breastfeeding classes, pumps, and additional services.

✓ **ADD**
a question about WIC participation in your EMR to encourage discussion about WIC at every visit, especially at well visits.

Visit wic.ga.gov for the latest WIC resources for your practice
