Help Wanted: Members for Chapter Communications Committee

The Georgia Medicaid CMOs in addition to Medicaid Fee for Service, will now cover telehealth well child visits. The Chapter has not yet received clarity yet on precisely how to code the “close the gap” visit. We will announce these details once we receive this information from DCH.

The Board of Trustees of this state family of the challenges and the best way to support yourself and your patients with the treatments you are currently providing. Remember that telehealth is for patients who are unable to physically come to your office. If you feel comfortable with this transition, please continue to provide telehealth services to your patients. If you have any questions or concerns, please contact the Elections Team (ndahill@gaaap.org).

Chapter Member Survey on Transition of Care Now Open

In our collaboration with Georgia DPH on this subject, the Chapter Committee on Adolescence has crafted a survey for AAP members. This self-assessment will help your practice learn how it supports pediatricians on transitioning youth from pediatric to adult care. This self-assessment will help your practice learn how it supports youth on transitioning from pediatric to adult care. As part of our collaboration with Georgia DPH on this subject, the Chapter Committee on Adolescence has crafted a survey for AAP members. This self-assessment will help your practice learn how it supports youth on transitioning from pediatric to adult care.

The Board of Trustees is keenly aware of the challenges you face with regard to physicals for the 2020-2021 school year. In response, the Georgia Board of Trustees has approved an exception to allow physicals that are valid through the end of this school year to be valid through July 27, 2020. This should assist schools in scheduling team physicals this summer or allow more time for your athletes to schedule a physical with their personal physician. As part of our collaboration with Georgia DPH on this subject, the Chapter Committee on Adolescence has crafted a survey for AAP members. This self-assessment will help your practice learn how it supports youth on transitioning from pediatric to adult care.
