

Georgia Mental Health Access in Pediatrics (GMAP) Program

GMAP Project ECHO®

The road to better mental health for Georgia's children.

FOCUSED

- Share and discuss mental health cases with colleagues and subject matter experts
- Learn to recognize, respond, refer for common mental and behavioral health diagnoses

EXPERT

- Connect with a interdisciplinary faculty team of child mental health experts in the state
- Peer to peer learning
- Collaborative problem solving

No cost to Chapter members! Free CME!

VIRTUAL

- 6 session series
- Each session just one hour
- Access to an advice line staffed by Child & Adolescent Psychiatrist to discuss behavioral and mental health-related patient care questions.

How can I get started with GMAP?

Current ECHO® in progress:

- Managing Anxiety & Depression
- Essential Topics in Early Childhood Mental Health

More pediatric mental health training cohorts launching in the Fall & early 2024!

Topics & dates to be released on the Chapter website & bi-weekly newsletter.

For more information, contact the Chapter's Behavioral Health Coordinator, Hannah Smith, MHS, at hsmith@gaaap.org or (404)881-5089
